Memo

02/29/20 19:07: Responded to a dog bite on the 700 block of N. Main. I arrived and met with TPD who had one dog under control. This was said to be the only bite dog. The other dog with it was seen on N. 1st. TPD had attempted contact at the alleged owner's house. That address was 718 N. Main and was tagged for notification. I pursued the other dog for several blocks and finally lost sight of the animal. I responded to VA hospital and met with the victim who had two long lacerations on his left leg. He also had wounds on his right thigh but unsure if the other dog bit him. I advised of the quarantine process and regarding a Dangerous Dog affidavit. Contact will be made with the reported owners and the other animal will have to be placed in quarantine as well.jm

03/02/20 12:08: The owner made contact with me and stated a tree fell on the dogs kennel and they dug out under the fence. I advised of the bite from both animal and advised that the animal needed to be placed in vet quarantine by 5:00pm today. I confirmed the male's vaccination status but not the female's. The male will be transferred to AMC today after payment to the vet. A DD affidavit was provided to the victim.jm

03/02/20 15:52: Aries was transferred to the vet clinic today. The female was verified to be current with rabies vaccination. The victim was notified of the status of the animals.jm
